

Support for North Tarrant Express 35W portion

We all need to take an interest now in attempting to keep/obtain/secure funding for the improvement of 35W. Please read the letter below and if you find you can support this effort please do so.

I want to share this important link with you to pass on the entire North Fort Worth Alliance Homeowner Associations. As you may know, the 35W Coalition has been working hard in Austin to gain support for the reauthorization of the North Tarrant Express CDA. Today, we have come to a critical juncture in this effort, and we are asking for your support to engage our representatives in Austin to pass CSHB 2255, which we expect to go to the House floor in the next week.

This bill is very critical in ensuring that all portions of the North Tarrant Express will be completed, and as primary beneficiaries of this project we must make our voices heard! If you have the ability to pass the Voter Voice link below to your neighbors and colleagues in the alliance, we ask that you do so as soon as possible. It is very simple and takes only three minutes to fill out.

<http://www.votervoice.net/core.aspx?APP=GAC&AID=1255&issueid=24772&SiteID=-1>

Many of you will remember me as a past neighbor in the Heritage subdivision (as well as past KISD Communications Director), and you also may know that my parents and both sisters live in Woodland Springs. As someone with a major stake in this legislation, I cannot express to you how important your support is at this time. Please do everything you can to get the word out!

Warmest regards,

Jason Meyer, Cooksey Communications, Inc. jason@cookseypr.com
