I-35W Traffic Plan Meeting

Dear Homeowners:

Heritage Homeowners Association is hosting a neighborhood meeting on April 12th, from 6:30pm to 8:00pm at the Heritage Church of Christ. L. Russell Laughlin, Senior Vice President of Hillwood and President of the 35W Coalition will be our speaker for the evening to discuss and answer questions about transportation issues for our region and what you can do to help. All neighboring communities are invited and we strongly urge you to attend.

Our region is witnessing explosive growth - from increases in population documented by the recently released Census data, to new companies moving to or expanding in the region, to the increased economic impact of hallmark, master-planned communities such as AllianceTexas.

While such growth is a positive sign for our economy, it has placed irreparable burden on our transportation infrastructure. And, with no new funding available for systemic capacity expansion in roads or rail, we are facing a mobility crisis like never before.

We hope to see you on April 12th!

Sincerely,

Tera Bellemare
Assistant Association Manager
